Sole makers of Brewster Wagous, with the Vertical Steel The maximum of strength, the minimum of weight, obvisting all spread of the axie, a prevailing source of annoyance to those using road wagons.

Besides the additional strength and security which this great improvement gives to our wagons, an experience of thirty-four years enables us to challenge comparison either in quality or finish.

See certificate from General McClellan:—New York, June 1, 1871.

GENTLEMEN:

I have carefully examined your Patent Vertical Sicel
Plate Azie. I find that the addition of the Vertical Plate
renders the axie about two and a half 22s) times as stiff as
it would be without it. Very respectfully.
